Daily Intelligencer.

BELLEVILLE, FRIDAY, DEC. 1.

Town and Vicinity.

Rifle Association.—The Hastings
 Rifle Association will hold a meeting this
 evening at Hamby's.

The Grand Central Hotel, New York
 "back the van" among the first-class
 hotels, by reducing its rates from \$4.00
 to \$2.50 and \$3.00 per day.

Broke the Ice.—The steamship little
Utic broke the ice on the bay this morning.
 Capt. Porter was evidently determined to bat-
 tle against Jack Frost as long as he can.

Exemptions.—The exemptions from tax-
 ation in Kingston aggregate upwards of
 \$100,000, and a half of dollars.

The Census.—The work of taking the
 census of the town, preparatory to the
 census of the county, was begun this
 morning, and will be completed to-morrow
 evening.

Indifference.—The only man in town
 indifferent to the cold last night, were the
 managers exhibited outside the foresters,
 and the lions which guard the port of Mr.
 Starling's residence.

To Visit Belleville.—The Rev. Charles
 Clarke, late of Australia, who has acquired
 a great reputation as a lecturer, is to visit
 Belleville about three weeks hence, when
 he will deliver one of his popular lectures.

Overseer Social.—An entertainment of
 this description is to be given in the Meth-
 odist Episcopal Church, Great St. James St.,
 this evening. Music by Mrs. Lano and
 choir, and addresses by able speakers.

Minstrelsy.—Ad. Wagner's minstrels
 performed before a considerable audi-
 ence last night. The talent of the Company
 was not what had been represented, but
 the performance being only ordinary in the
 point of merit.

A Bad Prediction.—Prof. Tico, the
 weather prophet, of St. Louis, predicts
 that this will be the severest winter
 experienced for 100 years. So far, Tico has
 about hit it; but the luges will live in
 hope of better things.

Perils of the Whys.—The *Why* of yester-
 day says: "A representative of the
 Public Works Department, accompanied
 by Mayor Foster, of Belleville, arrived
 here yesterday to transact some business
 in connection with the Asylum and Peni-
 tentiary."

The Cells.—What has become of all
 the tramps? Cold as it was last night, only
 one of them claimed lodging in the cells.
 Perhaps a number of them, however, are
 travellers who migrated southwards with
 the birds. It is to be hoped so, at all
 events.

Bail.—The bail given by the St. An-
 drew's Society last night proved very suc-
 cessful. Ontario Hall was very nicely de-
 corated, some seventy-five couples had
 "mirth and merriment" put in their heels
 by the strains of an excellent orchestra, and
 the fun was kept up until 4 o'clock this morn-
 ing.

Gold.—We were shown yesterday, by
 Mr. Jas. Young, of the Confederation Bank,
 seven "billion" of gold, the product of the
 Feigal mine, in Montana. Results are
 encouraging in our gold mining country at
 present, and with the invention of new pro-
 cesses for the reduction of the ores, the
 mine will ere long become a source of
 great profit to its owners.

Tax Holms.—This favorite company
 will appear in the Metropolitan Hall this
 evening, when they will produce (for the
 first time in Belleville) the brilliant *opera
 bouffe* "The Princess of Tyrol." The
 Holms are especially announced as the best
 English exponent of the beauties of this
 sprightly class of music, and they are cer-
 tain of securing liberal patronage.

Railway Enterprises.—The New York
 Register says:—"We are glad to announce
 that there is a probability of the
 Ottawa and Great Junction Railways
 through this County. A surveyor is now on
 the proposed route making a preliminary sur-
 vey with the object of running these two
 roads over a single line."

Bitterly Cold.—This term apply des-
 cribes the weather of last night. Winter
 has begun with its old-fashioned fierceness,
 and it seems likely that the predictions of
 the weather prophets will prove true. Last
 night's frost closed the bay, though the ice
 was broken by steamers this morning, and
 it being more than an inch or an inch and
 half thick. Another night's freezing will,
 however, put an end to navigation for the
 season.

The Last Weather Prophecy.—Mr.
 Vassar gives the following forecast of the
 weather for the month of December:—
 "There is every prospect of December being
 a very stormy and wintry month, with
 particularly a blizzard one. Last year we

had no sleighing at all during the month.
 This year, we shall, in all probability, have
 sleighing throughout. There will most
 likely be a great deal of snow and a severe
 cold snap."

SKATING.—There was excellent skating
 on the river today, and the boys seemed
 to enjoy it thoroughly.

ANNUAL MEETING.—The annual meet-
 ing of the M. H. H. Company, for the election
 of officers, will be held this evening.

THE GOLD SNAKE.—Prof. Bell informs us
 that his ordinary thermometer during this
 morning was 10° below zero.

OBITUARY.—The funeral of the
 late John Tompkins, which took place
 this afternoon, was attended by his brethren
 of the Independent Order of Oddfellows.

A CANDIDATE.—It will be seen by a card
 in our advertising columns that Chas.
 John is a candidate for a seat in the Town
 Council for Ketchikan Ward. Chas.
 John is, as usual, first in the field.

SKATING RINK.—The Belleville Skating
 Rink, Pinnacle Street, opposite the Market
 Square, will be open to the public on Fri-
 day, Dec. 1st, under the management of
 the "Belleville Skating Club." Further
 particulars in a few days.

A CENTENARY.—The Trenton Courier
 says:—"This week Mrs. Bayard, of Mur-
 ray, 100 years old, started for the States to
 see her son. She was accompanied by
 several of her grand children. This
 speaks volumes for the climate of this sec-
 tion of country. The old lady enjoys ex-
 cellent health and thinks herself good for
 another decade."

NORTH HASTINGS RAILWAY.—A petition
 is in circulation asking the Town Council
 to extend the line limited for the
 completion of the smelting works, for
 to pay for the bonds of \$50,000 to the rail-
 way on the completion, upon satisfactory
 security being given for the amount, the
 line to be held until the completion of the
 works.

NAVIGATION.—Although the bay was not
 completely frozen last night, navigation
 may be regarded as closed. The *Utic*
 made her trip down this morning, and will
 probably return to-night. "The Prince Ed-
 ward," after great difficulty, was able to
 extend the line limited for the completion
 of the smelting works, for to pay for the
 bonds of \$50,000 to the railway on the com-
 pletion, upon satisfactory security being
 given for the amount, the line to be held
 until the completion of the works.

TEMPERATURE.—We are indebted to
 Prof. Davis, Head Master of the High
 School, and Meteorological Observer for the
 following abstract of the weather: Nov.
 1st, 7 a. m. 12°; 1 p. m. 12°; 5 p. m. 7°; 7 p.
 m. 12°; 10 p. m. 12°; Mr. Dawson adds:
 "At 11 p. m. we had the lowest tem-
 perature of the season. We have not
 this year had a cold snap, but it will prob-
 ably go below that some time to-night."

WINTER BIRD.—The Trenton Courier
 says:—"Last winter we observed two birds
 resembling the English sparrow, all winter
 around the village, and we are informed
 that there is a nest of five English sparrows
 in town. We have not seen the nest and
 hope it will be found in the near future.
 Probably the birds in question are of the
 same species as those which were mistaken
 for English sparrows in this town last
 winter."

The old coal oil lamps are gradually
 being displaced, and their places supplied
 by the brighter light which the Gas Com-
 pany furnishes.

Socials, tea-meetings, lectures, the-
 atricals, operas, nigger minstrelsy, and other
 indoor amusements are now in vogue, and
 each and all receive a share of patronage
 from every citizen, and the tastes are varied
 and exacting, the best of everything being
 wanted.

Go to the Grand Central Hotel, New
 York. It is the only first-class hotel which
 has the courage to reduce rates from \$4.00
 to \$2.50 and \$3.00 per day.

FOR AUSTRALIA.—Among the Canadian
 products to be sent by the next Governor
 of Ontario Hall was very nicely de-
 corated, some seventy-five couples had
 "mirth and merriment" put in their heels
 by the strains of an excellent orchestra, and

PORTUNE AND THE BEGGAR

A ROMAN FAIR—TRANSLATED FROM THE FRENCH OF A. BEAUGRE.

BY JOHN S. AAR.

A Beggar who had come to door from the street, and who had been there for some time, was now standing in the doorway, looking at the people who were entering the house.

"You have a fine house," he said, "and a fine family. I am sure you are very happy."

"I am very happy," said the man, "and I am sure you are very happy."

"I am very happy," said the man, "and I am sure you are very happy."

Relative Trade of the Provinces.

From the Monthly Review.

The statistics of the trade of the provinces for 1876 have now been carefully revised, and are given in the following table.

For 1876, the figures have already been given in the Monthly Review, and are as follows:—

Consumption, during the twelve months, was \$98,066,435, making the total trade of 1876 to be \$175,079,000.

\$30,000,000 more than was given in the approximate statement.

At the end of the year, in consequence of the large contraction which took place in the imports, the balance of trade was in our favor.

We propose to make further details of the year's transactions, as they come to hand. In the order, according to the extent of their transactions.

Quebec.—This Province has the largest import and export trade, in consequence of Montreal being the shipping port for the whole of the products of Ontario, and because that city also imports largely for all the other provinces.

The goods imported into Quebec for 1876 were \$81,380,000, in 1875 \$78,000,000, and in 1874 \$75,000,000.

A large contraction—nearly fourteen millions and a half—on the part of the Province.

In 1875, the imports of the Province were \$87,515,000, or a falling off of eight millions and a half during the two years.

In 1874, the imports were \$88,374,000, but last year they were \$87,515,000.

Ontario.—The trade of Ontario has varied a good deal during the depression than that of Quebec. Its total transactions during 1876 were \$18,750,000, in 1875 \$18,750,000, and in 1874 \$18,750,000.

The goods imported into Quebec for 1876 were \$81,380,000, in 1875 \$78,000,000, and in 1874 \$75,000,000.

\$30,000,000 more than was given in the approximate statement.

At the end of the year, in consequence of the large contraction which took place in the imports, the balance of trade was in our favor.

We propose to make further details of the year's transactions, as they come to hand. In the order, according to the extent of their transactions.

Quebec.—This Province has the largest import and export trade, in consequence of Montreal being the shipping port for the whole of the products of Ontario, and because that city also imports largely for all the other provinces.

BELLEVILLE, WEDNESDAY, DEC. 6.

Town and Vicinity.

PERSONAL.—Mr. H. B. Witton, ex-M.P. for Hamilton, was in town to-day.

BEAKING UP.—The ion on the bay, in the track made by the Pierway, is being broken up by the southern breeze which prevails to-day.

SCHOOL EXAMINATIONS.—The examination of the scholars in the public schools began to-day. All interested in education are asked to attend.

TEMPERANCE ASSOCIATION.—The Committee of the Women's Christian Temperance Association will meet at the residence of Mrs. H. H. H. on Tuesday afternoon at three o'clock.

THE CELLS.—One solitary individual shared the accommodations of the cells last night with the constable on duty and a rat, which is too active and too cunning to be caught.

DOMINION MONTHLY.—The December number is to hand, with an interesting table of contents, and several illustrations. John Douglas & Sons, Montreal; \$2 per annum.

The Grand Central Hotel, New York "leads the van" among the first-class hotels, by reducing its rates from \$4.00 to \$2.50 and \$3.00 per day.

RECESSION WARD.—Mr. Morgan Jolly seeks election to the Town Council for Ketchikan Ward. Mr. Jolly is a well-qualified to efficiently represent the interests of the Ward. Mr. Thos. Holden also announces his candidature for this Ward.

THE TWO ORPHANS.—Miss Ada Gray last night gave a powerful representation of the mind given in this popular drama. The company generally did well, and the performance to-night the intensely interesting drama "Oliver Twist" will be given, with Miss Gray as Nancy Sykes, and Mr. Brent as Bill Sykes.

THE DUST.—No word other than "awful" will describe the nature of the plague of dust to-day. The streets are so dry that clouds of dust are raised, and dense and annoying than anything which prevailed last winter. If December dust be valuable, any one may make a small fortune by gathering it now.

CHANGE OF BUSINESS.—The subscriber having purchased the Stock of the late J. A. Kennedy at a very reduced price, will open on Saturday next, in the old stand, opposite Smith's tin store, with a full and complete assortment of Dry Goods and Groceries, which he will sell cheaper than any other house in Belleville.

SABATH SCHOOL INSTITUTE.—The Sabbath School Association of this County have decided upon holding a Sabbath School Institute during the third week of January. The services of Professor Henry, of New Jersey, have been engaged as conductor. With one so well skilled as Prof. Sherwin is in every department of Sabbath School work as the conductor, the Sabbath school of our county and town may look forward to a meeting of more than ordinary interest.

SALE OF LANDS.—The County Treasurer's adjourned sale of lands for taxes, took place on Tuesday, 5th inst., when the lands which had been sold at the previous sale were put off. The attendance was not large, but the competition was quite lively, the result of the postponement of the sale and an examination of the lands being that the township realized nearly the entire amount of the taxes due.

THE VOTING TO-MORROW.—The voting on the By-law granting a loan of \$200,000 to the Grand Junction Railway Company will take place to-morrow. If those of the electorate who favor the By-law turn out to exceed the voters, the result is certain to be in accordance with their desires. Unless this be done, there is just a possible chance that the opponents of the measure, who are working earnestly, may secure a small majority.

RECAPTURED.—The Kingston News says of the attempted escape of a convict referred to by us yesterday:—"On the way up from Montreal yesterday morning the convicts managed to make his escape from the window of the train in which he was carried while the train was some distance east of Kingston Mills. The train was stopped and a guard let off. A telegram was awaiting the train at the next station stating that the convict had been recaptured."

"MORA." L. O. N. 727.—At the annual meeting of the above Lodge, held on Monday evening, 5th Dec., the following officers were elected and duly installed for the ensuing year: W. M. James H. H. D. M., Thos. Thompson; Chap., James Macdonald; Sec'y, S. A. Gardner; Treas., James McCruden; D. of C., John Harris; Committee: Messrs. J. Wallace, Wm. Thompson, George Thompson, H. Kennedy.

FOR AUSTRALIA.—Among the Canadian products to be sent by the next Government steamer from Montreal in the spring, will be a number of cases of Rheumatic Absorbent and Digestive Fluid; they will doubtless meet with success. Hundreds of people have been relieved from life-long pains by their use. Any one using them will never be able to do without them. They are for sale by nearly all druggists.

Resolution of Condolence.

The following extract from the minutes of the Belleville Ironmongers' Union has been forwarded to the relatives of the late John Wilson, who was a native, and until a few years ago a resident of this town, and whose death at Belleville we recently recorded.

"At the regular fortnightly meeting of the Ironmongers' Union of this town, held at Belleville on Tuesday evening, the 21st day of November, 1876, the following resolutions were unanimously adopted:

"Whereas, it has pleased the Almighty God, in his inscrutable wisdom, to remove from our midst, in the full vigor of his manhood, our beloved and esteemed brother John Wilson;

"Resolved, That the resolutions be copied in minutes and be read at the next meeting of the Union, and that a copy of the same be transmitted to his relatives."

SAMUEL MILLAR, Chairman. A. LORIMER, Sec'y.

LIFE AND DEATH.—The death of a man, and the death of a dog, are both equally sad. We saw not of the dog.

Norwegian Vessels Wrecked.

24 PERSONS DROWNED.

THE CUBAN WAR LOAN.

Extradition Treaty in Operation.

LONDON, Dec. 5.—Three Norwegian vessels have been wrecked off the coast since Sunday. All hands, numbering 24, were drowned.

MADRID, Dec. 5.—In the Senate yesterday the debate was resumed on Marshal Camacho's motion disapproving of the Cuban war loan. The Minister of Finance, Mr. Sagasta, in reply to Mr. M. de Moragas, said that the Government in Cuba, by reason of its attacks upon property and extrajurisdiction which characterized it, was a war of extermination. Both Europe and America were interested in repudiating all sympathy with such a war, which could only result in the absolute and final extinction of Spain.

LONDON, Dec. 5.—The Standard this morning states that Sir James Graham, Bow Street Magistrate, said that a query concerning the arrest of Brent is answered, at the request of the Government.

The Standard confirms the report that the Government of the United States has by telegraphic message accepted the new extradition treaty.

Louisiana Counts in Hayes.

HAYES COUNTED IN FOR FLORIDA.

NEW ORLEANS, Dec. 5.—The Returning Board to-day gave the result of the vote in Louisiana. Hayes received 10,000 votes, and Tilden 9,000.

WHEELER ELECTED and the Republican State ticket elected. In some parishes no form of law was observed, and in others violence was committed by the voters. The result was so conclusive that the Returning Officers unanimously rejected the votes stated to have been cast by the voters. The Democratic electors will meet to-morrow and cast their votes. They will obtain certificates from McKim as the judge Governor. The Democratic cause will be a long and arduous one.

PORTLAND, Dec. 5.—The number of bodies thus far recovered from the ruins is about 75, and it is believed that as many more are still in the ruins. They are mostly those of the occupants of the family circle.

—There were thirty-six deaths from small pox last week in Montreal.

—The United Empire Club announce a House dinner on the 16th inst., at which Sir John A. Macdonald will preside.

THE LATEST.

SEVENTY-FIVE BODIES RECOVERED.

MANY MORE IN THE RUINS.

NEW YORK, Dec. 5.—The extent of the disaster in the Brooklyn Theatre becomes more appalling. Among the missing is the well known actor H. S. Murdoch. After endeavoring to calm the fears of the panic-stricken audience, he went to his dressing room to get his clothing and must have been suffocated.

BELLEVILLE MARKETS.

INTERESTING OFFER.—Belleville, Dec. 5, 1876.

POULTRY.—The market here is now hard and is expected to continue so for some time. The market for all kinds of poultry is steady, prices being a trifle stronger than last week, while eggs are also without change. Butter is a trifle lower in price. Cheese has risen to 70s in the English market.

GRAIN.—Since the close of navigation recent heavy rains have been falling, and the market for all kinds of grain has been depressed. The market for all kinds of grain is steady, prices being a trifle stronger than last week, while eggs are also without change. Butter is a trifle lower in price. Cheese has risen to 70s in the English market.

HIDES.—A slight decline has taken place since last week, \$5.50 being the ruling price today. Sheepskins show an advance.

WOOL.—There is a large supply and prices range from 83 to 85 per cent, buying by the bale. Contracts are being filled at 84 1/2 to 85 per cent for dry hard-wool.

Art and Science Odds and Ends.

There is iron enough in the blood of

forty-two men to make a ploughshare

writing twenty-four pounds.

It is stated that Johnson's next opera

will be founded on Fenella's tale.

"The Experiment." The principal part

to be played by Miss Judie.

Miss Mary B. Oldenhouse, daughter of

the Protestant Episcopal Bishop of New

Jersey is one of the most promising female

artists of New York city.

Fredrick von Kattmann, a member of the

Prussian aristocracy, will shortly make

her debut at Mignon at the Berlin opera

house.

Mr. Fell, the glass worker of Paris, has

just finished the making of a crystal

for the great Vienna refractor. The

diameter is twenty-eight inches and the

weight 112 pounds.

Susan Fletcher Smith, an American

lady has bequeathed her body for dissec-

tion to the Royal College of Surgeons,

London, only asking that women students

shall have the first choice.

Professor George of Williams College,

has announced his intention of making an

expedition to Labrador, taking with him

the students who are desirous to accompany

him. The expedition will start about July 1

and return about the last of September.

The proposed cremation of the body of

the late deceased Baron de Palm, in this

country, has been prevented by the experi-

mental cremation of two animals, which

showed that the furnace needed a little larger

vent to insure a perfect cremation.

An Australian has taught a carying bird

to sing before a company, near a

music box, and the bird, when the

music was played, sang the notes of the

music, the bird finally caught the notes,

and now whistles the whole song.

The new Court Theatre in Dresden, of

which the first stone was laid in 1871, is

well advanced for completion. It will

be the greatest of the kind in Germany, as

well as the most magnificent of its kind

in the world. It is arranged for 2,000

spectators.

A sum of £21,000,000 has been allotted

for the construction of the French Ex-

hibition Building of 1878. An artificial

water will be pumped out of the Seine by

colossal engines, which will themselves be

an attractive part of the Exhibition. The

water will be illuminated every evening

with colored and electric lights.

Five thousand dollars added to the \$28-

000 already advanced for the purchase of

the purchase of the Canada collection, has

been announced. Mr. H. Conant, who

has been in charge of the collection, has

what has been accomplished so far, to re-

ceive an answer that he has rejected the

proposition of \$20,000 for the purchase of

the British Museum, and will reserve his

collection for New York.

Frederick Douglass, one-half the ac-

claimed drowned persons are buried alive,

and they may be brought to life by

proper treatment after being buried in

the water. His remedy is to get out of

the water, pour in air, and inject alcohol

into the veins, and the person will be

out, or hot iron in the back. He says

that life remains long in the intestines,

and that they may be situated in the

stomach, and the person will be out, or

hot iron in the back. He says that life

Comparative Geography.

Greece is about the size of Vermont.

Palatinate is about one-fourth the size

of New York.

Hindostan is more than a hundred times

as large as Palatinate.

The Great Desert of Africa has nearly

the present dimensions of the United

States.

The Red Sea would reach from Wash-

ington to Colorado, and it is three times

as wide as Lake Ontario.

The English Channel is nearly as large as

Lake Superior.

The Gulf of Mexico, if placed across New

America, would make sea navigation from

San Diego to Baltimore.

The Canadian Sea would stretch from New

York to St. Augustine, and it is as wide as

the Gulf of Mexico.

The Gulf of Mexico is about ten times

the size of Lake Superior, and about as

large as the Sea of Okhotsk, Bay of

Bengal, China Sea, Okhotsk or Japan Sea.

Lake Ontario would go in each of them more

than fifty times.

The following bodies of water are about

the same size: German Ocean, Black Sea,

Yellow Sea, Hudson Bay, rather larger.

The Baltic, Adriatic, Persian Gulf, and

Aegean Sea, half as large, and somewhat

larger than Lake Superior.

A Wrong Conclusion Corrected.

It is quite generally the custom to take

long stimulants for the cure of liver complaint.

Both the mineral and vegetable kingdoms

have been diligently searched to procure

the best and most potent stimulants for

the cure of liver complaint, and the result

NEW REVISED EDITION.

Entirely rewritten by the ablest writers on

every subject. Printed from new types

and illustrated with several thousand

splendid maps.

THE work originally published under the

title of THE NEW AMERICAN CYCLOPAEDIA

was revised in 1863, and since that time the

work has been revised and enlarged in all

parts of the United States and the editorial

work has been continued by the ablest

editors and publishers in the United States.

Within the last few years the progress of

science in every department has been

made a new work of reference an imperative

need.

The movement of political affairs has kept

pace with the discoveries of science, and

the progress of the industrial and social

life. Great wars and consequent revolutions

have occurred, involving national changes

of vast importance, and the progress of

the world has been such that the

BELLEVILLE, FRIDAY, DEC. 8.
POLITICAL CHARLATANISM.

The latest phase in political charlatanism was exemplified in the Toronto Globe of a few days ago, when it objected, among other reasons, to the candidature of Mr. Dalton McCarthy, for the County of Cardwell, on the ground, as it alleges, of his being a non-resident, and therefore unable to know the wants and requirements of the people of that county. Apart from the fact that Mr. McCarthy lives in the County of Simcoe, a part of which was taken from the electoral district of Cardwell, it is not singular that a journal with any pretensions to respectability should have the superlative impudence to oppose a gentleman upon such grounds, when it is known that its own "editor in chief," when he wanted a seat in Parliament, went into the rural constituencies of Haldimand, Oxford and Ontario, though he lived in Toronto, in order to secure the coveted vote, and ran against a local man, too, and is now, and has been, the leading spirit in that Toronto ring of Grits, which has sent more men into outside constituencies far beyond the precincts of Toronto, than all the Province besides. It opposes the election of Mr. McCarthy because he does not live within the territorial limits of Cardwell, though a resident of the county out of which he is running is formed, and at the same time supports in Parliament for constituencies far away from their residence. Let us suppose that the Globe was instrumental in bringing out, and sending into outside constituencies:

Edward Blake, of Toronto, is elected for Bruce.

James McCall, of Toronto, represents East York.

David Blair, a Toronto lawyer, sits for West York.

Oliver Mowat, a Torontonian, owes his seat to the people of North Oxford.

Matthew Crooks, another lawyer, after being defeated in Toronto, where he resides, was foisted upon the electors of South Oxford, mainly owing to the action of the Globe.

Thomas Hodgins, a Toronto lawyer, sits in Parliament for West Elgin.

Rupert M. Wells, the Speaker of the Ontario House of Assembly, was sent to South Bruce by election by a party who now howl about non-residents.

J.D. Edgar, the available candidate, was sent first to Monck, then to Oxford, and finally to South Ontario, but the people thought less of him, in these constituencies, than did the Globe, and as a result he was defeated.

James Bethune, another of the Chancery Grit ring of Toronto, was sent to Stormont to seek the suffrages of the people.

E.B. Wood, of "Spokane" notoriety, was picked up by the Globe and sent to West Durham for election.

James A. McCallan, another Chancery lawyer, who resides in Toronto, was packed off to North Victoria to seek a constituency; and last though not least, that we shall mention at present, is Alfred Hutchinson Dymond, one of the members of the Globe, and in all probability the man who wrote the article objecting to Mr. McCarthy.

On the ground of his being a non-resident, now sits in Parliament for North York, though living in Toronto.

And yet this paper has the audacious impudence to write against a man on account of his being a non-resident. If this is not a deliberate attempt to humbug and deceive its readers, we know not what would be. Well may the intelligent ones among them exclaim *en la bayollette!*

The Steel Rail Purchase.

"Iron and steel," says the St. John Watchman, "have been falling in price, until now the steel rails for which Mr. Mackenzie paid fifty-five dollars and some cents per ton, can be bought for thirty-three dollars, or three fifths of the price that was taken from Canada's strong box to gratify the whims of an incapable Minister of Public Works. Most of the fifty thousand tons of steel rails which were bought about two years ago, before they were needed; they are now lying unused and rusting in various parts of the Dominion. The reason for this, therefore, by this single transaction, has been, in price, \$1,000,000, and in interest about \$200,000, or a total of nearly \$1,200,000. Say, ONE MILLION FOR THE HONORABLE THOMAS DYMOND."

This is something every elector can readily comprehend. It is something that every informed citizen ought to know, and a pretty expensive illustration of the ideas of economy and good management, and a notable instance of their method of improving on the management of their predecessors. It had to be bought, we know, to discover that Mr. Mackenzie is a bad speculator, when he operates for the Dominion; but let us console ourselves with the thought that what was the Dominion's loss was the gain of the "firm" which the Premier's brother was a partner.

After having written the above the Patriote continues: "Steel Rail England have fallen to \$35 per ton. We know how, of their having been offered as low as \$27 per ton, or half the price which Mr. Mackenzie paid for them. The difference between \$27 and \$35 is ten shillings, or 50 cents (the quantity purchased by the business-like Premier and Minister of Public Works) would amount to \$1,350,000."

The loss of interest is about \$200,000 more. This is the price we pay for Reform, and over anxiety on the part of the Ministry to aid its friends.

The Bonus By-Law.

Although, as we stated in our yesterday's issue, there was very little excitement over the voting on the Grand Junction By-law, yet the interest felt was deep, and was proved by the fact that no less than 818 votes were polled, being the largest number of votes ever recorded on a By-law in the town.

The overwhelming majority of 285 votes cast in favor of the By-law, shows that the public are heartily in favor of securing the completion of the road, and willing to strengthen the hands of the majority in pushing it to completion.

The following is the official record of the voting by Wards:

We trust that, now the By-law has been passed, the Directors will take all possible steps preliminary to a commencement of work with vigor in the spring. The outlook in Peterborough is most satisfactory, and it seems that the misfortune of the enterprise, which has so long been a result which will be hailed with acclamation by every public-spirited citizen of the Town and County.

The Grand Junction.

The *New York Register*, in an article on the railway prospects of that place, has the following: "Increased interest in the Grand Junction. The Directors appear at least to have realized the fact that they cannot build that line without aid from the Town and County of Peterborough, and also the fact that they need not expect to receive that aid unless some change was effected in the contemplated route of the road. This journal long ago pointed out the fact that the route of Peterborough having voted the very liberal amount of three hundred thousand dollars for the construction of one road through the County from East to West, are not foolish enough to build their last-named road to run in a different direction from the one already running in the same direction and in such close proximity. As we intimated last week, the directors of the roads have entered into an informal agreement to run over the route of the East from the Town as practicable. A surveyor was sent out to examine the County between Campbellford and the Narrows, and also between Hastings and Norwood, with a view of effecting a junction either at Belmont or at this village. Mr. Stewart has been over both routes, and we think we are safe in saying that, in view of the expensive nature of the work which would be required in constructing a road between Macdonald and the latter route, the amount of money which has already been expended between the former place and Hastings, also the amount of bonus which would be relinquished in case the route directed to the former, and the level nature of the country between Hastings and this place, the latter route will ultimately be recommended and adopted."

If it is understood between the two Directors to be entered into in good faith, there is nothing to prevent the construction of the road through this County being completed next summer. As everyone knows this is a particularly suitable time for railway building, and the material being cheaper than for many years."

We cordially agree with our contemporary in wishing a successful termination to the negotiations now going on between the Directors of the Huron and Ontario, and Grand Junction Railways. It is to the interest of both roads that an arrangement should be come to, and we hope to be able to announce at an early day that an agreement has been entered into.

MEXICO.—The reports of a successful revolution in Mexico under the leadership of Porfirio Diaz, and of the flight of President Lerdo de Tejada, are confirmed. Many of the troops have been captured, and Diaz, who has proclaimed himself Provisional President, and appointed an *ad interim* Cabinet.

THE LATE STOCK TROUBLE.—The Montreal Star of last evening says: "We regret to state that the late crisis in stocks, which has fallen heavily on the Dominion, has been made a success. The Board have, in making a concession to the people, have taken out an attachment in insolvency against them, and Mr. D. J. Craig was appointed *ad interim* manager. The liability of the Dominion is \$2,000,000 and \$3,000,000. The assets are very large, and nearly all the creditors are secured, to within 10 or 15 per cent, by holding stocks as collaterals."

CANADIAN HORSES.—Mr. Joseph Grand, writing from Liverpool to Dr. Coleman, of Ottawa, says: "Quite a trade has recently sprung up between Canada and England in horses, and the prices realized are most encouraging. The Liverpool *Mercury* writes on the subject says: 'The high prices obtained for horses in this country have directed the attention of Canadian breeders to the importations of stock from that country to England. A considerable trade has consequently sprung up between Liverpool and the Canadian ports, and the demand for horses is increasing. It is likely to be further developed. A sale of Canadian horses, imported by Messrs. Grand & Son, of Liverpool, (the Dominion *Tatler's*) was held yesterday, when Jeffrey & Son, at Ayr, when very fair prices were realized (average 60 guineas) for the season of the year. The importers are very well satisfied with the result of the sale.'"

News Condensed.

CARDWELL.—The nomination of candidates for the representation of Cardwell in the House of Commons took place at Mono Hill yesterday afternoon. Mr. Dalton McCarthy, Governor-elect, and Mr. Bolton, Grit, were nominated. The election takes place on the 14th.

THE OUTLOOK IN FRANCE.—The outlook in France is not very promising. The Republican majority in the Chamber resolve to co-operate with any Cabinet which will not impose conditions restraining Marshal MacMahon in the selection of his administrative staff. This move the President, supported by the Senate, is determined to oppose; whereupon the Republican Deputies threaten to retaliate by holding out on the question of the Budget, and finally solution of the difficulty say suggested is the formation of a Cabinet composed of the most distinguished Liberals in both Chambers, which would be accepted by all parties in the present dispute.

THE EASTERN QUESTION.—The first of the preliminary meetings of the European Plenipotentiaries which are to pave the way for the Conference, met at the Russian Embassy in Constantinople yesterday. The programme of the meeting included a general discussion of reforms and guarantees thereof, followed by the examination of three British Consuls and of several Turkish Christians. These meetings will be continued for a week, after which, it is hoped the Conference will open. It is stated that an agreement between the Powers is not impossible. Nevertheless Russia is preparing for the worst, and it is stated that a manifesto has been printed and distributed ready for circulation at a moment's notice. The commander of the army of the South have been notified to hold themselves in readiness to cross the frontier, and the troops have been engaged to convey the troops to the Danube. Servia and Roumania are also preparing, and have ordered large quantities of arms and ammunition from foreign markets.

RATES OF MORTALITY.—A statement of the rates of mortality of the following cities of the United States for various years, lately published in the *Sanitarian*, gives the averages which we append.—New York, 25.44 per 1,000; Philadelphia, 19.65; Brooklyn, 20.17; Baltimore, 14.67; Chicago, 25.56; Baltimore, 20.30; Boston, 21.71; Cincinnati, 17.85; San Francisco, 20.45; Washington, 26.17; Pittsburgh, 25.62; Providence, 17.14; Milwaukee, 20.52; Rochester, 27.74; Richmond, 25.82; New Haven, 15; Charleston, 28.94; Toledo, 19.62; Mobile, 25.3; Dayton, 15; Nashville, 28.22; Wheeling, 21.42; Buffalo, 18.57; Knoxville, 17.22; Patterson, 26.76; Petersburg, 36.4; Selma, 25.61; Elmira, 16.83; New County, N. Y., 25.71; Yonkers, 18.8; Memphis, 20.25. It will be interesting to compare these averages with those of several large cities of the old world. The annual rate of mortality per 1,000, as recorded, was in Calcutta, 25; Bombay, 31; Paris, 26; Brussels, 19; Amsterdam, 20; Rotterdam, 24; The Hague, 36; Copenhagen, 20; Stockholm, 31; Christiania, 18; Berlin, 41; Hamburg, 33; Breslau, 38; Munich, 34; Vienna, 21; Budapest, 37; Rome, 20; Naples, 31; Turin, 18; Alexandria, 20.

A German militiaman in the regular army, in the course of a few days he was put in a picket duty. His instructions were, when he saw any German in any aggressive attitude, then, there times, and then shoot. Before long he perceived a man approaching; he fired, and the man fell. He then stepped forward, and he suddenly found his musket to his shoulder, and shouted: "Who comes here close times?" Hang!

DEATH OF AN EDITOR.

The Brooklyn Tragedy.

CLEVELAND, O., Dec. 8.—At the session of the National Base Ball League yesterday, the Mutual and Athletic Clubs were expelled by a unanimous vote. One of the rules adopted was that providing for uniforms and lively ball with all clubs must play.

Toronto, M., Dec. 8.—The large boiler of Frost's Woolen Ware Works, in this city, exploded on the 7th inst., killing one man and injuring two others. The building was badly damaged. Loss about \$25,000. 200 men were thrown out of work by the catastrophe.

New York, Dec. 8.—John Morrisey has declared off all pools and all houses on the direct result of the Presidential election.

Edward J. Bear, L.L.D., of New York, editor and proprietor of the *National Quarterly Review*, died last evening.

At a meeting of theatrical people yesterday to concert measures for the relief of the Brooklyn theatre sufferers, a resolution was adopted asking every theatrical company in the country to contribute the proceeds of one performance to the relief fund. Memorial services in Brooklyn Academy of Music next reports that he was obliged to come home, as he had lost nearly all his cable in consequence of a large cable becoming entangled in it. The vessel was at anchor, and seems that by cable means the whole got the end of the cable meant the anchor tumbled around his tail, and in his efforts to free himself became securely entangled. The crew had no intimation of the trouble till the vessel was suddenly towed through the water at the rate of ten or fifteen miles an hour for several miles. The vessel lifted himself out of water several times, and at length broke the cable and freed himself. About 140 fathoms of cable were lost. Had the monster had the use of his tail he would probably have done serious mischief to his own lives, say that they never kind of such an adventure before.

A Strange Adventure.

The *Marblehead* correspondent of the Boston Globe says:—

The schooner *Henry H. West*, of Beverly, by Thomas Peach, of this town, master, arrived on Thursday from Grand Banks, with 600 quintals of fish. Captain Peach reports that he was obliged to come home, as he had lost nearly all his cable in consequence of a large cable becoming entangled in it. The vessel was at anchor, and seems that by cable means the whole got the end of the cable meant the anchor tumbled around his tail, and in his efforts to free himself became securely entangled. The crew had no intimation of the trouble till the vessel was suddenly towed through the water at the rate of ten or fifteen miles an hour for several miles. NEW REVISED EDITION.

Editorial revision by the ablest writers on every subject. Printed from new type, and illustrated with superb colored engravings and Maps.

THE work originally published under the title of THE NEW AMERICAN CYCLOPAEDIA, was completed in 1858. It was the first work of the kind published in this country, and it has since been the standard work of reference for all who are engaged in the study of the sciences, literature, and art. It has been revised and enlarged to meet the requirements of the present time, and it is now published in a new and improved form. The work is now published in a new and improved form. The work is now published in a new and improved form.

Within the last ten years the progress of science in every department of knowledge has made a new work of reference an imperative necessity.

The movement of political affairs has kept pace with the discovery of science, and the fruitful application to the industrial and social arts. Great wars and consequent revolutions have occurred, involving national changes of political boundaries. The civil war of our country, which has been the most bloody and destructive in the history of the world, has been the result of the same causes.

Largely as our geographical knowledge has been furnished by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are now known to all, and of whose lives every one is curious to know the particulars. Great facilities have been furnished for the study of the history of the world, and the details are as yet imperfectly known.

It is, therefore, in the interests of the day, but which ought not to take their place in the hands of the student.

In preparing the present edition for the press, it has been the aim of the publishers to bring the information to the latest possible date, and to give a complete and accurate record of the progress of political and historical events.

The work has been long and carefully prepared, and it is now published in a new and improved form.

None of the original stereotype plates have been used, but every page has been printed from new type, and the work is now published in a new and improved form.

The illustrations which are introduced for the first time in the present edition have been selected for the sake of pictorial effect, but to give a more complete and accurate record of the progress of political and historical events.

Smelting Iron with Petroleum.

As our readers are aware, experiments

have been made of late in Marmora by

Messrs. McCorquodale and Holmes,

of Chicago, with the view of determining

the highly important question, whether or

not iron can be successfully smelted with

oil instead of coke. The cost of production

it will readily be apprehended by all who

give a moment's consideration to the sub-

ject, that were the experiment successful

it would represent a most important

improvement would be made in the

great improvement would be made in the

prospects of our black country, of the

value of the ore in which, and the extent of

the deposits, it is not necessary to inform

those who have perused our columns in the

past few years. From time to time we have

had news of the progress of the experi-

ments, and the results of the experiments

of the gentlemen named, but it is not

until now we are enabled to announce

that the experiment has been successful.

The cost of production is such

as to justify a belief that their

operations have resulted in a success

which is most gratifying. Using the

ordinary blast furnace, they have suc-

ceeded in producing a quality of iron

of surpassing excellence, it being, as taken

from the smelting furnace, fit for use with-

out undergoing the further process of

piggling and rolling. Specimens of the

iron cast from it, and of the pig-

iron heated in a blacksmith's forge, and

hammered into various forms, were

exhibited, proving conclusively the success

of the experiment. The cost of production

DINWY MEET.—The Prince Edward Rail-
 road Company failed to meet for the election
 of Directors, on Wednesday last, as
 advertised.

HARD TIMES.—Oswego seems to be
 very strongly the pressure of the hard
 times. An aftermath of that city promises
 that the City Corporation shall raise \$10-
 000 to assist the poor.

ERADICATE.—The compositor made an
 error yesterday that Mr. McCarty's majority
 Cardwell was five greater than that of Mr.
 Cameron in 1874. It was written and
 should have been printed two hundred.

ANNUAL BALL.—The annual ball of the
 Maiden City Lodge No. 13, Prince House,
 will be held in the Metropolitan Hall on
 Monday evening. Those who attend will
 find the management in capable hands. 11

EXHIBITION.—An interesting musical and
 dramatic social will be given by the
 ladies of Alexandra College, on Monday
 evening, 18th inst., in the College Chapel,
 commencing at 7:30. Admission 10 cents. 11

AMERICAN CONSUL.—The Japanese
 Consul says: "Mr. A. R. Lee has been re-
 ceived from the office of American Con-
 sul Agent at this port. We understand
 that Mr. Wellington Ames, of Moscow,
 has received the appointment to the vacant
 situation." 11

ST. GEORGE'S CHURCH.—Owing to un-
 foreseen circumstances, St. George's Church
 Entertainment will be held in the Town
 Hall on Tuesday evening next, Dec. 19th
 inst., instead of Monday, as stated on the
 7th inst. 11

DR. BELLEF, M. R. C. S., England
 Oculist and Aurist, of Montreal, will be at
 the Deaf House during the last three days
 of this month. 31

FIRE.—At about 12 o'clock last night,
 a small frame house in the 2nd concession of
 Thurlow, about a quarter of a mile from
 town, and occupied by Mrs. Goggin,
 took fire and was burned to the ground.
 The poor woman's effects were, we believe,
 almost entirely consumed. Loss about
 \$450, on which there is no insurance. 11

DAIRYMEN'S MEETING.—The sixth annual
 convention of the New York State Dairy-
 men's Association was held in Elmira on
 the 13th. Prominent dairymen from all
 parts of the State were present. The
 convention was welcomed by Mayor Turner
 and the annual address was delivered by
 President N. A. Willard, the subject being
 the history of dairying. 11

TRAMPS.—The trampish sailors are grad-
 ually becoming more numerous, the calls
 for help for the last few nights have been
 fully answered. Good use might be made
 of these itinerants by causing them to pay
 for their night's lodgings by performing
 hard labor in the clearing of snow from the
 sidewalks in front of lots which have not
 been built upon. 11

TRUST.—"Municipal politics" are very
 quiet in this village, the Courier reporting
 that it is only with difficulty that candidates
 can be induced to offer themselves for elec-
 tion. It seems probable that Mr. Jeff will
 be re-elected Reeve, should he again offer.
 The village will, owing to the increase in
 the number of ratepayers during the past
 year, be entitled to an additional representa-
 tive in the County Council. 11

STORM.—The weather last night was as
 blustering as a Grit pilot in an election
 campaign. From an early hour and snow
 accompanied the blast, which increased in
 power, until about 11 o'clock it subsided
 to a calm. The snow was strong, blowing
 about buildings, whistling through key-
 holes, rapping down chimneys, threatening
 destruction to all that opposed its progress
 and filling the air with dense clouds of
 snow, which piled into drifts wherever any-
 thing intervened to break the force of the
 wind. A good deal of damage was done to
 windows and roofs, and some trees. Taken
 for all-in-all, it was a little night as has
 been experienced for a long time.

COUNTY COURT.—This Court has been
 adjourned until Monday, the furnaces being
 unable to keep up the necessary degree of
 heat.

The Grand Central Hotel, New York,
 has adopted the railroad plan of "cut rates,"
 and announces a reduction from \$4.00 to
 \$2.50 and \$3.00 per day. 61

CHURCH COURT.—To-morrow, and on
 each Sabbath, until further notice, service
 will be held in this Church at 3 o'clock
 p.m., instead of 3:30 o'clock, as formerly.

The Market.—The cold to-day was too
 great and the roads too heavy for people to
 venture into town from any great distance.
 As a consequence business was light, the
 market being smaller than the demand.

 been built upon. 11

TRUST.—"Municipal politics" are very
 quiet in this village, the Courier reporting
 that it is only with difficulty that candidates
 can be induced to offer themselves for elec-
 tion. It seems probable that Mr. Jeff will
 be re-elected Reeve, should he again offer.
 The village will, owing to the increase in
 the number of ratepayers during the past
 year, be entitled to an additional representa-
 tive in the County Council. 11

STORM.—The weather last night was as
 blustering as a Grit pilot in an election
 campaign. From an early hour and snow
 accompanied the blast, which increased in
 power, until about 11 o'clock it subsided
 to a calm. The snow was strong, blowing
 about buildings, whistling through key-
 holes, rapping down chimneys, threatening
 destruction to all that opposed its progress
 and filling the air with dense clouds of
 snow, which piled into drifts wherever any-
 thing intervened to break the force of the
 wind. A good deal of damage was done to
 windows and roofs, and some trees. Taken
 for all-in-all, it was a little night as has
 been experienced for a long time.

COUNTY COURT.—This Court has been
 adjourned until Monday, the furnaces being
 unable to keep up the necessary degree of
 heat.

The Grand Central Hotel, New York,
 has adopted the railroad plan of "cut rates,"
 and announces a reduction from \$4.00 to
 \$2.50 and \$3.00 per day. 61

CHURCH COURT.—To-morrow, and on
 each Sabbath, until further notice, service
 will be held in this Church at 3 o'clock
 p.m., instead of 3:30 o'clock, as formerly.

The Market.—The cold to-day was too
 great and the roads too heavy for people to
 venture into town from any great distance.
 As a consequence business was light, the
 market being smaller than the demand.

LECTURE—Rev. Mr. Conner, pastor of
 the Episcopal Church, will deliver a
 lecture in that church on Monday evening,
 on "How the World Goes to Church."

Municipal Elections.

The following is a list of candidates for
 municipal honors who have, up to the present
 time, announced their intention
 through our columns:

For Mayor—W. A. Foster, and Alex.
 Robertson.

DINWY MEET.—The Prince Edward Rail-
 road Company failed to meet for the election
 of Directors, on Wednesday last, as
 advertised.

HARD TIMES.—Oswego seems to be
 very strongly the pressure of the hard
 times. An aftermath of that city promises
 that the City Corporation shall raise \$10-
 000 to assist the poor.

ERADICATE.—The compositor made an
 error yesterday that Mr. McCarty's majority
 Cardwell was five greater than that of Mr.
 Cameron in 1874. It was written and
 should have been printed two hundred.

ANNUAL BALL.—The annual ball of the
 Maiden City Lodge No. 13, Prince House,
 will be held in the Metropolitan Hall on
 Monday evening. Those who attend will
 find the management in capable hands. 11

EXHIBITION.—An interesting musical and
 dramatic social will be given by the
 ladies of Alexandra College, on Monday
 evening, 18th inst., in the College Chapel,
 commencing at 7:30. Admission 10 cents. 11

AMERICAN CONSUL.—The Japanese
 Consul says: "Mr. A. R. Lee has been re-
 ceived from the office of American Con-
 sul Agent at this port. We understand
 that Mr. Wellington Ames, of Moscow,
 has received the appointment to the vacant
 situation." 11

ST. GEORGE'S CHURCH.—Owing to un-
 foreseen circumstances, St. George's Church
 Entertainment will be held in the Town
 Hall on Tuesday evening next, Dec. 19th
 inst., instead of Monday, as stated on the
 7th inst. 11

DR. BELLEF, M. R. C. S., England
 Oculist and Aurist, of Montreal, will be at
 the Deaf House during the last three days
 of this month. 31

FIRE.—At about 12 o'clock last night,
 a small frame house in the 2nd concession of
 Thurlow, about a quarter of a mile from
 town, and occupied by Mrs. Goggin,
 took fire and was burned to the ground.
 The poor woman's effects were, we believe,
 almost entirely consumed. Loss about
 \$450, on which there is no insurance. 11

DAIRYMEN'S MEETING.—The sixth annual
 convention of the New York State Dairy-
 men's Association was held in Elmira on
 the 13th. Prominent dairymen from all
 parts of the State were present. The
 convention was welcomed by Mayor Turner
 and the annual address was delivered by
 President N. A. Willard, the subject being
 the history of dairying. 11

TRAMPS.—The trampish sailors are grad-
 ually becoming more numerous, the calls
 for help for the last few nights have been
 fully answered. Good use might be made
 of these itinerants by causing them to pay
 for their night's lodgings by performing
 hard labor in the clearing of snow from the
 sidewalks in front of lots which have not
 been built upon. 11

BEHAVIOR, MONDAY, DEC. 18.
THE GRAND JUNCTION.

Since the project of connecting this line with the Huron and Quebec has taken tangible shape a great revival of interest in regard to it has taken place in the town of Peterborough and several other municipalities in that county. The *Review*, at the head of the "big thing" arising in the town of Peterborough, thus speaks of the scheme and its importance to that town:

"An important direction, too, our prospect of seeing. Last week the town of Belleville voted an additional bonus of \$50,000 to the Grand Junction Railway by a very large majority. Other municipalities interested in the completion of this road, which may, very probably, be undertaken next year, are also anxious to see it. The fact that the Grand Junction, which has been examining the country between the two lines, has reported to the Directors that there is more than one route by which the Grand Junction might easily connect with the Huron and Quebec, and that its financial as well as its engineering advantages have been considered."

With these two roads constructed, Peterborough, situated as it will be on the trunk line from the west to our Eastern Provinces, and an important thoroughfare from the Georgian Bay to the St. Lawrence, would be in a most favorable position. Such an addition to its great natural advantages would be a most important step towards making it a most important station in the northwestern line, and it is almost needless to say, would be looked upon with pleasure by the people of this town, more especially as the growth of this railway has been so rapid, and the fact that the Campbellford Road points out the advantage that would be derived from the Grand Junction and Huron and Quebec Railways, running together by the Great River. It says:

"We understand that a gentleman in the interests of the Grand Junction Railway Company, passed through this village last week, last week, looking for a point to connect the Grand Junction line with the Huron and Quebec Railway. If the project of the latter is carried out, it is a most important step towards making it a most important station in the northwestern line, and it is almost needless to say, would be looked upon with pleasure by the people of this town, more especially as the growth of this railway has been so rapid, and the fact that the Campbellford Road points out the advantage that would be derived from the Grand Junction and Huron and Quebec Railways, running together by the Great River. News Condensed.

The oldest inhabitant of Winnipeg predicts a mild winter. On the 15th inst., several large icebergs were seen. A large iceberg was seen on the 15th inst., several large icebergs were seen. A large iceberg was seen on the 15th inst., several large icebergs were seen.

Chandler lumbermen are getting their share for the shanties on the Upper Ottawa. An enthusiastic farmer has sold a steer weighing 2,200 lbs., the largest and heaviest ever seen in Lennox.

Upwards of twenty-seven tons of poultry were shipped from Brockville on the 15th inst., for the Boston market. Hon. John Young has been appointed a Commissioner for Canada at the Sydney Bazaar.

Another scandal in Montreal is causing some talk. The parties are a dashing young beauty and an unmarried lady. The scandal in society is very high.

A Montreal telegram of the 16th inst., says: "About 17 minutes past five last night a fire broke out in the city of Montreal, in this city, which seemed very close to the city."

Over 3,000 families in Montreal are without water, the supply being turned off when they failed to pay the tax. The total amount of tax amounts to \$283,000. Eighty per cent of the tax will be lost.

A Toronto dispatch says a woman named Davis, was found dead in the streets on the morning of the 16th inst. Numerous spots of blood were on her dress, and it is supposed she was killed by a falling object from the sidewalk and from the street.

During the gale at Montreal on the 15th inst., the cable wall of Brodie's mill was blown down, and several persons were killed. Fortunately no lives were lost. Telephone wires down, and a block of new houses blown over in Longueuil.

The Toronto correspondent of the London *Advertiser*, who is generally well informed on the subjects he discusses, says that Mr. Crooks has had under his consideration the question of University consolidation, which is at present occupying considerable attention.

Killed by a Runaway. The steamer which left Liverpool on Nov. 23rd brought intelligence of the death by accident of Mr. George Moore, a leading London merchant and great public benefactor. It is said to be the case of the steamer.

The London *Standard* says: "At the age of eighty George Moore arrived at the London house of Grosvenor, Copeland, and Co., which firm largely owned the steamer. He was a man of great energy, and a great public benefactor. He was a man of great energy, and a great public benefactor."

A Horrible Story.

When Victor Hugo published that most ghastly of all modern romances, "L'Homme qui rit," the general work of the story was a ghastly one. The story was a ghastly one. The story was a ghastly one. The story was a ghastly one.

The general public of the world has been fascinated by the facts of the case when he created the character of the horrible creature which flourished at the period at which he lived the most of his life. The story was a ghastly one. The story was a ghastly one. The story was a ghastly one.

Some months ago Prof. Emory, of the Medical College of Virginia, applied to the authorities of the city of Vienna for assistance in carrying out and bringing justice to the case of a patient who was an epileptic. The patient was a patient who was an epileptic. The patient was a patient who was an epileptic.

CLOSING SALE.

THANKFUL to our friends for their liberal support, and as it is our intention to discontinue the sale of our goods, we are offering a closing sale of our goods, at our store, 37 Park Row, New York.

WHOLESALE BUSINESS. At our manufactory in Niagara, to close our branch in this town, we offer our entire stock at a discount of 25 per cent.

Cash at Manufactory Prices, to enable us to close by the NEW YEAR, as the establishment will then change hands.

GIVE US A CALL. If you want FURNITURE. It will pay you to call on us. Repairing always done on the premises.

J. GIBBEARD & SON. WM. MINORE, Manager, Nov. 24, 1876.

FURS! FURS! FURS! EVERYTHING NEW. NO OLD STOCK.

NEW HATS, NEW CAPS, NEW FURS, All the Latest Styles, and of the Finest Finish.

VERY CHEAP. As our Furs were all MADE ON THE PREMISES THIS FALL, we can guarantee them as represented.

GOOD GOODS AND LOW PRICES. Is our Motto. Call and see them at GOLDSMITH & DAVENPORT'S.

1876. FALL 1877. I am now opening one of the largest and best selected stocks of Fancy and Staple Dry Goods.

Ever brought to this town, which I will sell at the LOWEST PRICES!

Tailoring Department. I would call special attention to my immense stock of

Mean Fellows.

Men who get the reputation of being

mean fellows, are very often, not half

as mean as those who give them the name. It

is very easy to get such a reputation in the

country, where pecuniary predilections are

so generally and so justly, held to be

misunderstood. The extravagant, the im-

provident, from so large a part of our

population, that they who have different

habits are apt to be regarded unjustly.

Being unwilling to waste their money, or

to spend what they feel they can not afford

to, or having a laudable desire to accumu-

late, their detractors are set down as mean.

Logic, however, is not the only standard

by which we should judge of men. In the

mode of humanity, and finds expression in

such phrases as "I may have failed, but

no body can accuse me of a bad heart."

"Whatever my failings, mine are not of the

kind which I do not squeeze a dollar into

his duty, but that he had no redress. An amendment of the law in this respect is certainly desirable, as the official who has his duty ought to be protected, and we hope that the matter will receive the careful attention of the Legislature at its forthcoming session.

—A lot of fine ornamental New Year's cards, will be given at the Commercial Hotel to-night.

—St. George's Church Sunday School entertainment will be held to-morrow (Friday) evening in No. 5 Station School building.

—Admission 10 cents. Children of Sunday School free.

—In this township Mr. Thos. J. Fair has retired from the contest for the Revere, so that Mr. Thos. Walker has been re-elected by acclamation.

—Paul Kingston, Nathan Clark and John Stiles, who were nominated as Councilors, have also retired.

—A notice elsewhere in today's issue announces the death of Mr. Samuel Benson, Provincial Land Surveyor, at a ripe old age.

—Mr. Benson had been in the service of the Government for 34 years, and was consequently one of the oldest inhabitants of the place. He was devotedly esteemed by all, and left behind him a high reputation as a professional man and also as a citizen.

—Horse Disease.—We are informed that a hitherto unknown disease is spreading with disastrous effect amongst horses, in the vicinity of the village of Moira, township of Huntingdon. It seems to be a sort of bronchial affection, and generally proves fatal in about twenty-four hours.

—Mr. Daniel Vandervort has lost four horses from this disease, namely a team of valuable blacks and a span of colts.

—The School Law.—For some time it has been urged that persons who have successfully passed the necessary examinations and obtained Provincial certificates, should be admitted to teach in the public schools, to be admitted as pupils, if they desire it, to the various high schools without being required to pass the newly introduced intermediate examination.

—It was recommended in their behalf that it was a hardship to be put through them both, when one should be deemed sufficient to both being of about the same value to both of the intermediate examinations.

—The Minister of Education having taken this view, he has recommended the Government to pass an Order-in-Council authorizing the admission, without further examination, to the high schools of persons who hold such certificates, and hereafter they will not be subjected to the intermediate, the Order having been made.

—A MONDAY CHRISTMAS.—The following prophecy is going the rounds of our exchanges. As it may tend to confirm or contradict the prediction that all may have a chance to prove it, we give it the benefit of our circulation.

—On Monday, Christmas day, the year will be a great winter day, with snow and frost, and all winds will be cold and strong. High winds will be felt, and strong winds of tempest shall be felt.

—While battles shall be fought, and all great plenty of wealth shall die, and all great plenty of wealth shall die, and all great plenty of wealth shall die.

—The year 1866 was the year of the Austro-Prussian war, a year of disastrous gales, and a year of cattle plague. Again, in 1871, Christmas day fell on a Monday.

—The twelvemonth following that day saw us with a cattle plague in Scotland and some great storms; but as to "battles" we must go back a few years for the capitalization of Paris and the conflict with Commune.

—We have now a Monday Christmas for the third time in a dozen years.

—FIRE-PROOF SECURITY.—Since the occurrence of the recent terrible calamity in the Brooklyn Theatre, a great deal of attention has been given to preparations for resisting fire.

—Amongst those who have given their time to the matter has been Mr. Boniccioli, the eminent author and actor. The process he has adopted is as follows, and very simple as well as inexpensive.

—The canvas, ropes, etc., upon and about the stage are first saturated with a solution of tungstate of soda; over this when dry, is painted, as it were, a "priming" of the solution of silicate of soda, which general treatment renders everything to which it is applied effectively unflammable.

—However, to the wood-work, for which it is also well adapted, a different application is made, viz., the painting of it with the tungstate of soda, and a more thorough and effective solution. So excellent is it said to be, that wood once saturated with it will not ignite, though a fire be placed immediately beneath it.

—It is, however, crumbling, and is being used in a manner which is being subjected to an intensely hot flame, which failed to ignite it.

—A SCOTCHMAN'S ERROR.—Though not the largest of the exchanges on our list, the *Colborne Express* is one of the most readable, which is to say that it is ably conducted.

—The paper has closed its tenth year, and Mr. George Keyes, the proprietor, (an old INTELLIGENCER boy) is complacently reviewing his financial position, rightly attributes his success to hard work, and the unremitting attention of all who wish to succeed in business.

—At first it was certain that we would "burst." Now it is stated as emphatically that we are not "burst," rather that we are "bursting" out, and that we have been chiselled out of at least 25 per cent of our hard earnings.

—And have paid "right straight along" to the dollar, and without a cent on the dollar, and without a cent on the dollar, and without a cent on the dollar.

—There is no doubt a dun or a protest, and no doubt a dun or a protest, and no doubt a dun or a protest, and no doubt a dun or a protest.

—The way to do it is—live within your income, whether it be fifty cents or three hundred dollars a day; also, mind your own business.

—The case against R. M. Mott was dismissed, as although the liquor had been found in deft's house, he professed to sell soda water, and give away the liquor, thus evading the law.

—A FALSE PRETENCE.—Hearing of the case of Douglis v. Gordon was resumed before the Police Magistrate and Mr. Bowell. The prisoner was committed for trial.

—AFTERNOON DISPATCHES.—New York, Dec. 28.—A fire on Broadway, opposite the Metropolitan Hotel, was under control at 11 o'clock.

—Tony Pastor's theatre suffered more damage from smoke and water than from fire. The photograph gallery of Frederic's & O'Neil were burned out.

—Loss on paintings and stock heavy. The floor of 583 and 585 Broadway were burned out. The losses to the occupants will be heavy.

—New York, Dec. 28.—The Supreme Court gave decision today upholding the constitutionality of the Gilbert Elevated R. Co.'s charter, and the right of the Legislature to alter the mode from a trolley way, as first approved, to the present plan of elevated tracks and steam locomotive.

—The appointment of Commissioners is granted, and they will be appointed by the Court. Judge Daniels gave a dissenting opinion.

—New York, Dec. 28.—Arrived, the S. S. *Revia* from Liverpool.

business or stop it at once. These reflections are thrown out good-naturedly for the guidance of others and as the actual experience of one who "pays as he goes." In ten years he has not been absent from our shop 48 consecutive working hours.

—Mr. Kays' success is almost phenomenal, as editors generally are obliged to neglect their own for the public business, and so many failures are made.

—Why it is Done.—Why do people read advertisements? To see who is doing, and to know what is going on. To see if there is anything new, anything that they want. To see if the season's styles have come and who has them. To know if any one is selling off at reduced rates or to watch the chance of an auction.

—For amusement. To satisfy curiosity. Because they have read of them, and because they are curious, and because they are curious, and because they are curious.

—Masonic.—There was a large gathering of the fraternity in the Masonic Temple last (Wednesday) night, when the officers elect of the lodge in Belleville were installed.

—The ceremony was performed by R. W. Bro. S. L. Lavier, P. D. D. G. M. Following were the list of the officers of the various lodges.

—MOIRA LODGE NO. 11, G. R. C. Bro. David Price, W. M.

—Bro. J. R. Jones, Chaplain. Bro. D. Urquhart, Tyler.

—Bro. W. Bro. L. H. Henderson and W. Bro. W. Jones, Board of General Purposes.

—Seasonable Topics.—At this season of the year numbers of people start on the sidewalks and really don't want to. It's chilly, though.

—The British postal authorities have selected the Williams & Guion line of steamships for the conveyance of the Royal party to the continent to New York.

—Butchers sell "quarters" for the purpose of making dollars. The scraps of the old year are fast falling, and will soon run out. All hail to 77.

—An enterprising reporter, finding lodges very scarce, offers to give a chromo to parents who permit their little boys to go down to the river to skate.

—To those who compel the hired girl to start the kitchen with her laundry, a subscription to the paper is given gratis.

—The nice girl naturally and the nice girl artificially is the classification now days.

—And now the medical men say that diphtheria is caused by the gas which escapes in ill-ventilated rooms.

—Shall it be wine or coffee for the coming New Year calling day? The ladies who keep open house and expect gentleman company will do well to reflect about it.

—A cup of coffee is a grateful beverage, and expresses the good wishes of the lady quite as well as wine. Give coffee, and give the poor difference between the cost of that and wine.

—Police Court.—(Before A. Diamond, Esq., P.M.) THURSDAY, DEC. 28.

—THE LIQUOR LAW.—The case against R. M. Mott was dismissed, as although the liquor had been found in deft's house, he professed to sell soda water, and give away the liquor, thus evading the law.

—A FALSE PRETENCE.—Hearing of the case of Douglis v. Gordon was resumed before the Police Magistrate and Mr. Bowell. The prisoner was committed for trial.

in liquidation by Nathan J. Stone at Yokohama, and he has made an assignment of all the property of the firm for the benefit of the creditors, to Mr. Ethel C. Hine, President of the American Clock Company.

—London, Dec. 28.—A dispatch from Moscow to *Reuters* Telegram Co. says: The *Gazette* declares the new Turkish Constitution a mere mockery of the law-governed. It adds that the only way of improving the condition of the Christians in Turkey is effluence, and the granting to Christians the right to carry arms, or depriving Mussulmans of that right.

—WASHINGTON, Dec. 28.—The Senate committee on privileges and elections will commence the investigation in the Oregon electoral case to-morrow. Watts, Odell, and Cartwright, the representation electors, and Hon. Stephen Clark, Secretary of the State of Oregon, the witnesses subpoenaed to appear here, arrived this morning.

—WASHINGTON, Dec. 28.—Prohibition.—For the Middle States northwesterly winds, increasing cloudiness and snow, slowly falling, barometer and temperature continue below freezing.

LAMENT.

A Fastidious Beggar.

The Bible on the ledge.

The man's face dashed up as he asked:

"Gotta Trench," said Mr. Spriggs.

"Oh, they have a disfigurement."

"Oh, well," said Mr. Spriggs, noting his look of disappointment.

"I'll run up and get it out of the can."

No, no, you need not, Campbell I do not, and get your buttons!

"Gotta Trench," said Mr. Spriggs.

"Oh, they have a disfigurement."

"Oh, well," said Mr. Spriggs, noting his look of disappointment.

"I'll run up and get it out of the can."

Wit and Humor.

Arithmetical toast. "The fair daughters of this land."

A lady met a little country boy one morning, and said:

"Well, Johnny, how's your mother?"

"She's well."

"And your father?"

"He's well too."

"Now, Johnny, how's your parents?"

"Ain't got no parents, and my name ain't Johnny."

"Home's the place for boys," said a stern parent to his son, who was fond of going out at night.

"That's just what I think when you drive me off to school every morning," said the son.

Freshman—"I wonder why my nomenclature doesn't grow under my nose just as at the corners of my mouth?"

Sophomore—"Too much shade."

That farmer understood human nature who said:

"If you want your boy to stay at home don't let him see the griddle-when he turns the crank."

"Have you any pointed ears?" inquired a customer of a colored restaurant-keeper in Mississippi.

"Yes, Sah; all our eggs is pointed—last-day's chickens laid 'em," was the reply.

LUCY IN ADVERTISEMENTS.—Whenever I saw low and pensive, says Richard Grant White, I read the advertisements in the Irish papers.

Here is a man in Belfast who advertises that he "is in a position to supply scores and two parties in first-class style, having every appliance within himself."

Can this be the same gentleman being advertised in a North of Ireland newspaper for a lodger who would be treated as one of the family, "that would be expected to eat his own victuals?"

"I've often seen men," said a veteran general, "who could stand a fire of shot and cannon without showing any signs of uneasiness, but I never yet saw a man who could sit in a room where a bottle of soda was about to be opened without covering up his eyes and looking nervous."

In carrying a turkey in the presence of strangers it is breach of etiquette to stop more than twice to spit on your hands and get a new hold.

A gentleman standing on the Boody House steps this morning was accosted by a hooligan in this manner: "Shine 'er!"

"No!" "Shine 'er up quick, sar!"

"Do!" "Shine 'er up quick, sar!"

"Do!" "Shine 'er up quick, sar!"
